

The Mission of the USS *Houston* CA-30 Survivors Association & Next Generations- Scholarship Program

The USS *Houston* CA-30 was a gallant, heavy cruiser helping to defend the Allies in the South Pacific just after the Pearl Harbor attack. Overwhelming Japanese forces sank the USS *Houston* in Sunda Strait, off Java, on March 1, 1942. A small percentage of the *Houston's* crew initially survived the ship's sinking that fateful night. These men went on to redefine the term "survivor" while attempting to live through three and one-half years as prisoners-of-war on the Burma-Thailand Railway. The notorious railway was made infamous as depicted in the epic movie "Bridge Over the River Kwai." One thousand sixty-eight men were aboard the *Houston* when she was sunk. Three hundred sixty-eight became POWs of the Japanese. Seventy-nine died from starvation, disease and brutality.

Only a few USS *Houston* survivors are with us today. The original crew represented men from many different occupations, ethnic backgrounds and levels of education. The survivors went on to a variety of professional pursuits and successes. Many men of that generation did not have the opportunity to complete their high school education, as they were children of the Depression. Even fewer had the opportunity to obtain a college education. The survivors have decided to help further the education of the next generations of worthy young Americans through the USS *Houston* CA-30 Scholarship Program.

Let us always remember the USS *Houston* CA-30 and her valiant crew as other young persons reach toward their educational goals assisted by this scholarship award based on the applicant's grades, an essay and a review of extra-curricular activities.

SCHOLARSHIP APPLICANT REQUIREMENTS

- Be at least a high school senior assured of entering/attending college (including junior college) up to and including a college junior who will enter his/her final year of undergraduate education. Note- previous applicants/award recipients can re-apply (with a new essay and updated application).
